

LIGHTGLASS
Transforming Windowless Spaces

Skyglass Installation Guide

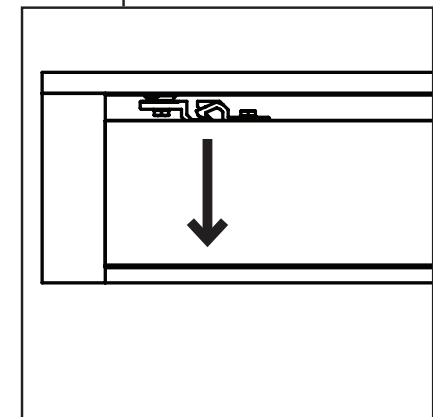

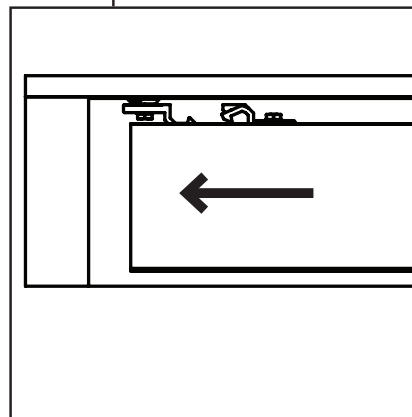

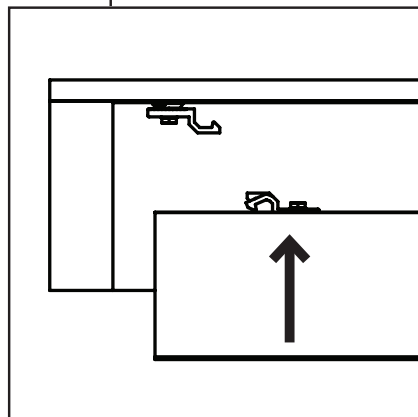

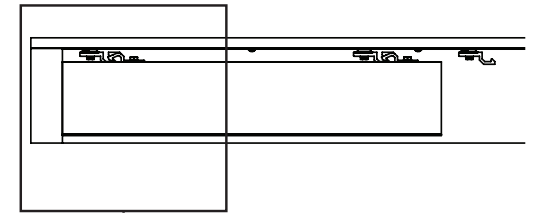

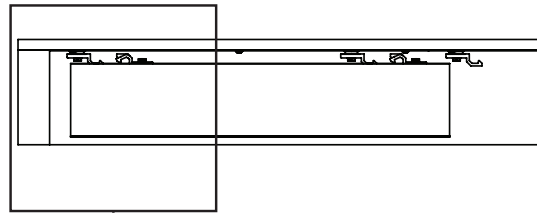

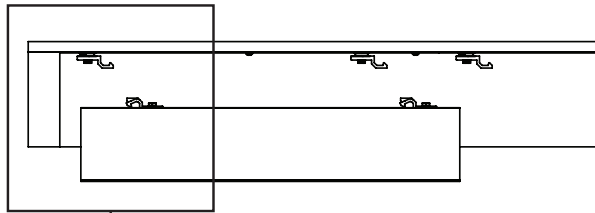

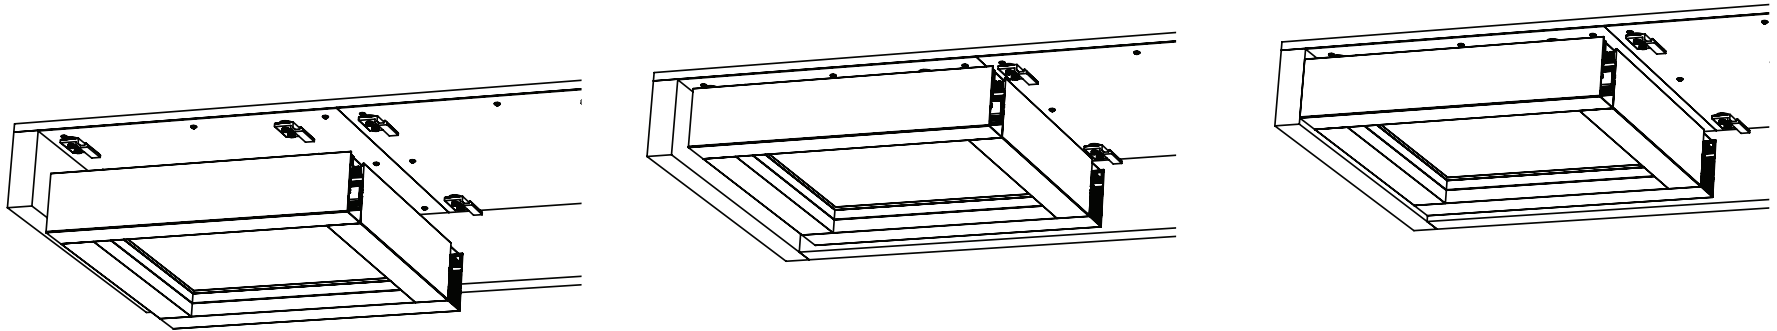

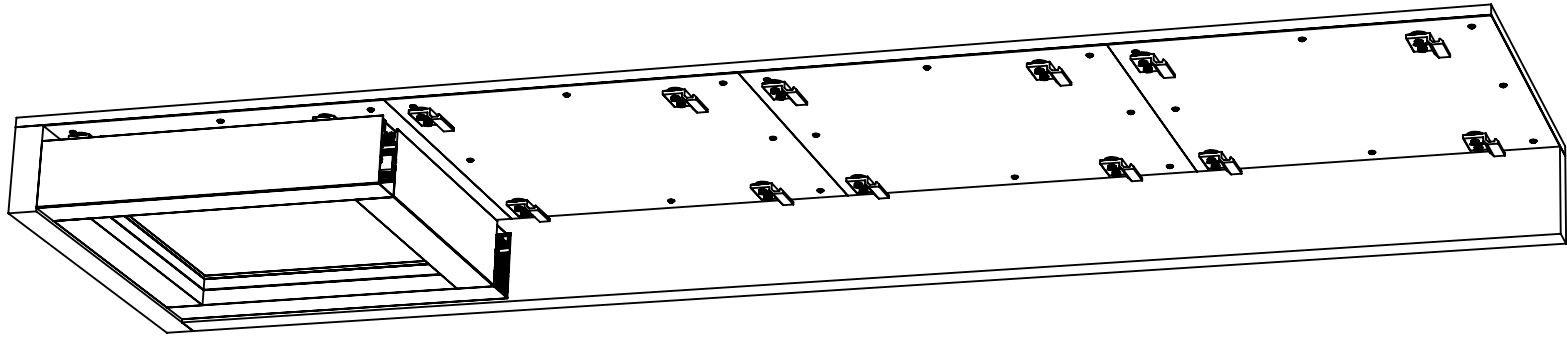

Screw mounting plate into
a solid substrate capable
of bearing full weight of
the Skyglass units

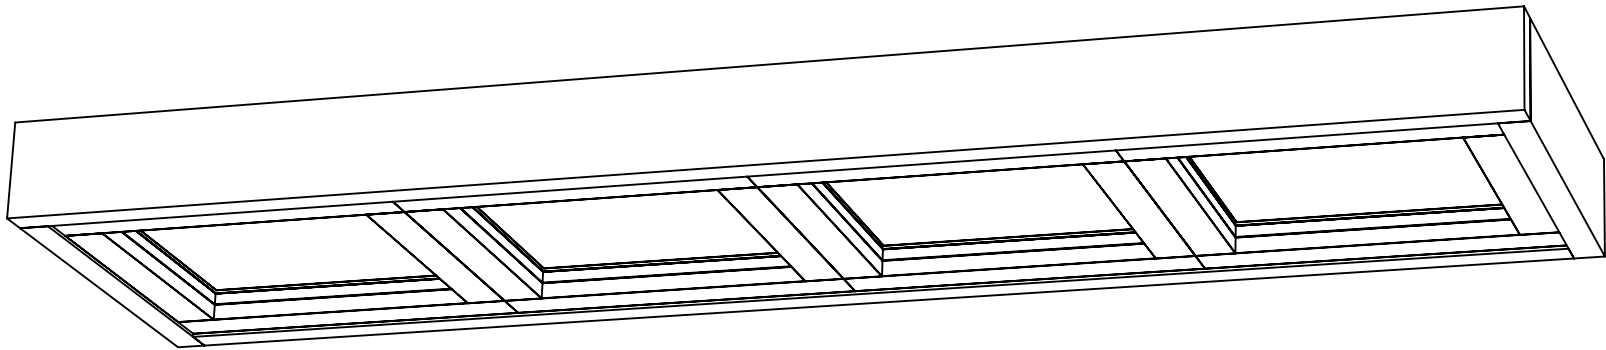

If installing an array of Skyglass units install multiple mounting plates.
Note : Mounting plates are the same size as Skyglass Units

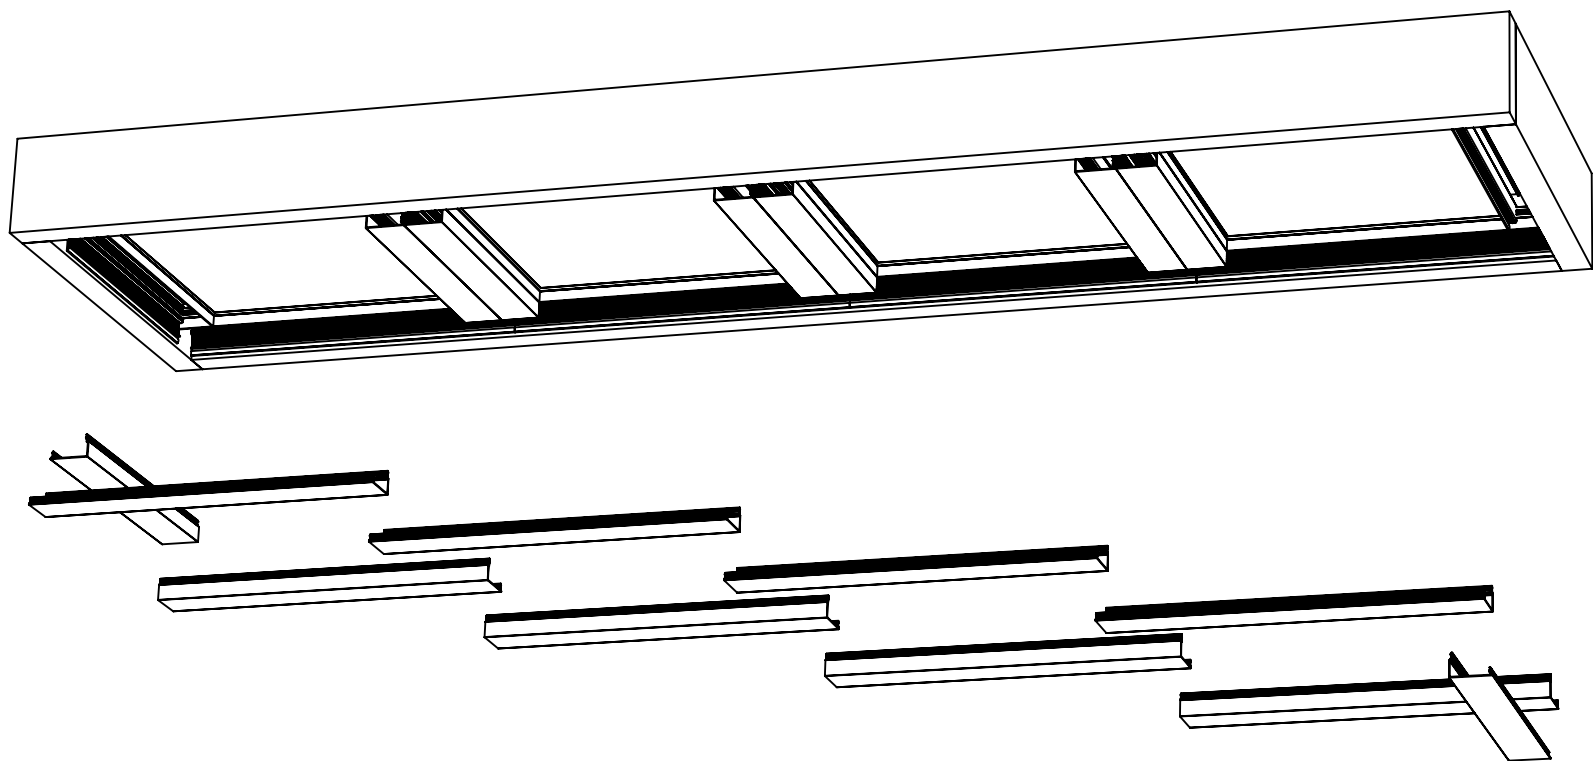

Lift and shift and the fixture into place. The clip prevents any lateral movement.

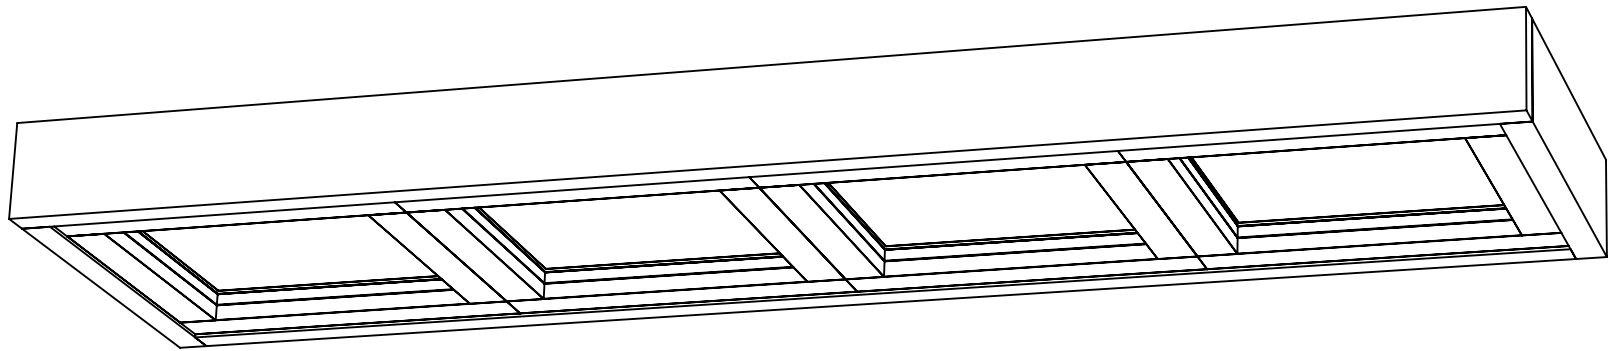

If installing an array install the remaining units one after another

Remove perimeter faces to access electrical wiring and internal frames.
Wire Skyglass as per local code and Lightglass wiring guide.

Reinstall the faces of Skyglass fixtures.
